

# QUALITY AND ENVIRONMENTAL POLICY

**NACEX**, the express courier services firm of the Logista Group, acquires the commitment to **comply with all applicable requirements** in its Quality and Environmental System in order to create loyalty and satisfy the needs and expectations of stakeholders, including respect for and protection of the environment.

To achieve these objectives, **NACEX** undertakes the following:

**Involve** all parts of the organisation in the need to focus all their efforts on continuously improving the quality and environmental management system, thereby increasing the efficacy of the processes established to provide its services.

**Provide** a framework for establishing Quality and Environmental objectives and goals, thereby allowing it to revise and adapt them according to a stakeholder's level of need.

Ensure that its actions and services **comply** with all legal and other applicable requirements.

**Control and optimise** the consumption of natural resources, without compromising the needs of the business activity, and investigate new supply sources that contribute to improving the sustainability of the brand.

**Analyse** the risks and opportunities of its business activity to ensure the continuous improvement of processes, at the same time implementing a preventive attitude in the management system to minimise environmental impact and prevent pollution.

Management undertakes to provide the necessary resources in order to assure compliance with the Integrated Policy of the Quality and Environmental Management System and comply with the commitments assumed with all its stakeholders... **with total dedication.**

**Pedro Fullerat**  
General Director
