

GENERAL TERMS AND CONDITIONS

SERVICE GUARANTEE

For non-fulfilment of the service, the amount corresponding to the expedition will be reimbursed, except in cases of force majeure.

LIABILITY

All **NACEX** transport conditions and guarantees are reflected in the **Account Opening** clauses and in the Collection Note, which constitutes the transport contract.

DELIVERIES

WITH NO MILEAGE CHARGE

Delivery with no surcharge for mileage on the prices shown on the tariffs. (Except **SATURDAY DELIVERY, ARRANGED DELIVERY, and SAMEDAY**).

COLLECTION

Our rates include any collection made in towns/cities with a **NACEX** franchise office and within its catchment area (15 km from the delivering franchise).

Spain and Andorra. They also include all collections outside this catchment area requested the day before or the same day of collection before 9 am on the same day, and which can be made between 9 am and 1 pm, for individuals and companies and from 10 am to 7 pm uninterruptedly for businesses and shopping centres. For Portugal, check with your franchise office for collection times. In the event that the collection cannot be made, for reasons beyond the control of **NACEX**, the cost corresponding to a failed collection will be charged. For more information check with your franchise office.

For any collection outside this radius, there will be a surcharge per kilometre (return trip) from the franchise office to the place of collection*.

DIMENSIONS AND WEIGHTS

When the sum of the three measurements of a package (width + length + height) is between 101 and 150 cm, the price of the shipment will be increased by a base unit, depending on the service and destination.

If the sum of these measurements is between 151 cm and 200 cm (maximum permitted size), the price of the expedition will be increased by two base units. (A base unit is the corresponding price of the fraction of up to 5 kg).

Exception: the **NACEX 19:00 H** and **PORTUGAL 19:00 H** services are increased by an additional fraction of 5 kg.

The **e-NACEX** and **NACEX PLUSPACK** services include a first excess in their price.

ADDITIONAL CHARGING FOR LARGE PACKAGES

Volumetric weight will be applied, whenever superior to the real weight, to all packages in multi-package expeditions or single-package multi-expeditions of this kind.

The volumetric weight shall be calculated (width x length x height (in cm): 4,000 = weight in kg) $1 \text{ m}^3 = 250 \text{ kg}$, with the surcharge for being oversized not being applied in these cases.

• VOLUMETRIC WEIGHT CALCULATION FOR SHIPMENTS BY AIR (Balearic and Canary Islands, Ceuta and Melilla, Azores and Madeira)

For deliveries by air, a volumetric weight is applied (width x length x height (in cm): 6,000 = kg), $(1 \text{ m}^3 = 167 \text{ kg})$, provided that this is greater than the actual weight, and no excess size surcharge will be applied).

Shipments transported by air in accordance with the Civil Aviation National Security Plan and in compliance with European Regulation 300/2008 dated the 11th of March 2008, must be accompanied by a "Declaration of Commitments-Account Consignor", as well as a description of contents. The Known Consignor Letter format can be requested from your franchise office.

• WEIGHT

The maximum weight per package is 40 kg with the exception of **NACEX PLUSBAG, NACEX PLUSPACK, NACEX promo** services.

• EXCEPTIONS

- Shipments of more than 1 package shall be calculated on the basis of fractions of 5 kg, provided that the number of packages is greater than the number of fractions.
Example: 3 packages. Total weight: 6 kg.
They shall be counted as 15 kg.
- In the case of services by air, the calculation will be based on fractions of 2 kg.

SERVICE EXCEPTIONS

Saturdays, Sundays, and public holidays are not considered working days.

• SCHEDULE EXCEPTIONS

- Shipments by air and sea to Ceuta, Melilla, the Balearic Islands, the Canary Islands, the Azores, and Madeira, may be subject to time variations beyond our company's control, and to the customs and excise process of the Canary Islands, Ceuta, Melilla, Andorra, and Gibraltar.

• EXCEPTIONS FOR ADDITIONAL HANDLING

Additional handling shall apply in the following cases:

- Any package that exceeds the established maximum weight or measurements.
- Irregular-shaped packages (cylindrical packages, drums/barrels, tyres, etc.)
- Packages that do not permit the overlaying of others, due to not having a regular flat side to support them.
- Packages that do not have the appropriate or adequate packaging or that may be a risk to the rest of the goods in terms of breakage and damage.

This additional handling may represent a delay in the expected delivery date and/or an extra cost in the price of the shipment, with **NACEX** not guaranteeing the return/refund or reduction of shipment costs in this scenario; thus, **NACEX** does not reimburse shipping costs, when delivered outside the expected time, due to the need for additional handling.

EXCLUDED GOODS

The delivery of packages or objects whose content is contrary to the law, morality or decency, or involve illegal trafficking, is forbidden, with the client being liable for the ensuing consequences and **NACEX** being held completely harmless from any liability due to this. **NACEX** may reject those shipments that are not suitable for transport, in accordance with Article 27 of the Commercial Code of Law 15.2009 of 11 November of the Contract for the Overland Transport of Goods.
